## **DETAILED ACTION**

1. Claims 1-22 are pending. The previous rejection is withdrawn.

## Claim Rejections - 35 USC § 112

- The following is a quotation of the second paragraph of 35 U.S.C. 112:
   The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.
- 3. Claims 1-22 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 4, "associated therewith" is not clear as to what is being referenced.

Claim 1, line 12, "to the retail processing system" is not clear as to what is being referenced. From line 9, "a retail processing system" is not positively recited as the phrase "that allows" is intended claim use.

Claim 1, line 17, "transferring ownership" is not clear as to its meaning. From line 2, "to allow a user to acquire" apparently is what Applicant relies on for ownership.

However, this is not adequate support for such and does not define what ownership constitutes.

Claim 12, line 7, "the operation" lacks antecedent basis and is not clear as to what is being referenced.

Claim 12, line 17, "ownership of the article is transferred" is not clear as to its meaning.

Application/Control Number: 09/597,131 Page 3

## Claim Rejections - 35 USC § 103

- 4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
  - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 5. Claims 1-22, as understood, are rejected under 35 U.S.C. 103(a) as being unpatentable over Baranowski, US 6,813,608.

Baranowski discloses, e.g. Figs. 1-6, a method/system for initiating and completing a commercial transaction, e.g. 120, that transfers ownership. The user has a unique identification, e.g. col. 6, lines 48-67, a bar code, e.g. cols. 16-17, that extract information, and a retail processing system, e.g. 125. Baranowski does not specifically disclose a temporary buffer. Official Notice is taken that temporary buffers associated with machine resolvable code has been common knowledge in the art. To have provided such with the method/system of Baranowski would have been obvious to one of ordinary skill in the art. The motivation for using such would have been implementing common knowledge technology used for its intended purpose.

Applicant's June 7, 2006 REMARKS have been reviewed, but are moot in light of the new grounds of rejection.

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP

§ 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

7. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Andrew Joseph Rudy whose telephone number is 571-272-6789. The examiner can normally be reached on Monday thru Friday.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Alexander G. Kalinowski can be reached on 571-272-6771. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for Art Unit: 3627

published applications may be obtained from either Private PAIR or Public PAIR.

Status information for unpublished applications is available through Private PAIR only.

For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
